

Dear American Chamber of Commerce in Norway,

We wish to thank you for having raised funds to The Ocean Cleanup. As we are a non-profit project, we are fully reliant on the kind support from individuals and corporations. We received your donation on the 11th of December, 2018. The total amount of the donations is 9342,53 EUR. Your donation will help us in the crucial phase we are in now, working on proving our technology, and later scale up to full fleet in the Great Pacific Garbage Patch.

We hope you will continue following us online, as we are updating our followers about the progress of System 001.

On behalf of The Ocean Cleanup,

Boyan Slat
Founder & President
